I am a determined individual who is self-driven and hardworking. I am excited at the opportunity to be apart of a team that share a common interest and passion in what they do. I hope to be able to bring my current skillset to the position as well as have the chance to learn much more in the future.

Work Experience

December 2014 Sainsbury's (Allende Ave, Harlow)
Temporary Nightshift.

June 2012 Longwood Junior School (Harlow, Essex)
Teacher Assistant.

September 2017 - July 2018 University Research Placement (Park Campus, Cheltenham)
During my time on placement we worked together on developing products brought to us by clients. These products varied from creating an AR app to a VR game, each product bringing its own challenge to us.

Qualifications

2015 - 2019. University of Gloucestershire
Computer Games Programming (**BSc Hons**)

2013 - 2015. Harlow College - BTEC
Level 3 National Diploma in Information Technology with a DDM

2008 - 2013. Stewards Academy - GCSE's
10 Subjects: 2 B's 5 C's including Maths and English

Activities/Achievements/Skills

I have a more advanced skill in IT from my time studying IT in college. I am currently studying computer languages such as C++ and C#, I also have skills with game engines such as Unity and Unreal Engine. I've used source control such as Github and SourceTree, I am also familiar with the tools Jira and Confluence.

I am currently project manager on our end of year project were I am required to manage a small team in creating a game, to ensure we are successful I am always giving people weekly tasks and expecting deadlines to be met. I have participated in games jams, one of those was at Anglia Ruskin University which I was extremely proud to have been apart of.

I have performed musically in front of an audience twice, this helped boost my confidence. As well as this, I have also climbed three mountains (Ben Nevis, Scafell Pike and Snowdon) which I am extremely proud to have accomplished. I am proud of achieving my punctuality and attendance awards which I received during my time at junior and secondary school. In my spare time I enjoy playing the bass guitar and writing music, as I am currently in a band as the bassist and lead vocalist. When I'm not doing those I'm usually working on other things such as my skills and playing lots of games.
